

Compressed Air Spray

Introduction

Technical sprays are used in nearly all sectors of modern industry. These sprays are used for care and protection of surfaces, for cleaning, degreasing, dissolving and separating and are essential in daily business.

WEICON Compressed-Air Spray can be used wherever dust can be removed only with difficulties in the conventional way. It permits dry, contact-free cleaning, even in inaccessible angles and on sensitive surfaces.

Applications

- On hi-fi and video devices (e.g. modules, PCBs, magnetic heads, disk drives, etc.)
- For optics (e.g. cameras, objectives, lenses)
- On car fuse boxes and windscreen washers
- On clockwork (quartz clocks)
- In medical technology
- In model construction
- In measurement technology
- On electrical components
- On PCBs

Technical data

Colour	---
Odour	almost odourless
Temperature resistance	--- °C
Shelf life (minimum)	24 months
Special features	Clean in a contact-free manner

Processing

Hold can strictly upright, do not shake can. Press spray top in short intervals as required. When using on electric appliances ensure good aeration before restoring power to avoid possible deflagration of gas nests by spark discharge.

Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They

are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation.

We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.
