

Label Remover

Introduction

Technical sprays are used in nearly all sectors of modern industry. These sprays are used for care and protection of surfaces, for cleaning, degreasing, dissolving and separating and are essential in daily business.

For fast and easy removal of paper labels and adhesive residues. Stickers and labels can often only be removed with great difficulty. The dissolving power of conventional cleaning agents is often not sufficient, while mechanical removal may damage the surface, for example by scratching. WEICON Label Remover removes labels and residues of acrylate- and caoutchouc based pressure-sensitive adhesives safely and without problems. WEICON Label Remover is suited for many surfaces, such as glass, metal, wood, foils and plastics*.

* Before use, check surface compatibility.

Applications

- Easy and safe removal of adhesive labels
- Removes price tags (e.g. after wrong price labelling)
- Removes address and product stickers, e.g. from drums and canisters
- Removes marking labels, e.g. from shelves, containers, drawers, and machines
- Removes label residues, e.g. on the conveyor belts of supermarket check-outs
- Removes adhesive residues from foil labels, like stickers on car windows

Technical data

Colour	colourless
Odour	citrus
Temperature resistance	--- °C
Shelf life (minimum)	24 months
Special features	Removes paper and foil labels with special spatula

Processing

Spray a sufficient quantity of Label Remover onto the label, allow to react for approx. 1 minute and pull off slowly. Repeat process in case of stubborn residues and remove old labels with attached spatula, if necessary. Spray again afterwards and clean surface with a cloth.

Since Label Remover evaporates without leaving residues,

new labels can be fixed to the surface without problem.

Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation.

We do guarantee the continuously high quality of our products.

However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended.

A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.
