

Single Pin Squeeze Clamp

The Single Pin Squeeze Clamp is a patented innovation based on the industry standard single pin Tri-Clamp®. The Squeeze Clamp includes two handles and a spring that allows the user to grasp and open the clamp with one hand and release the clamp after assembly leaving the other hand free to install the gasket and hold the connection.

This innovation eliminates the need for a "third" hand when making those awkward pipe connections in the plant.

Technical information

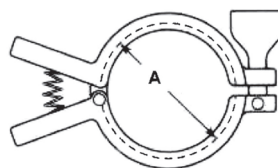

Sizes	see table, other sizes on request
-------	-----------------------------------

Connections	Tri-Clamp
-------------	-----------

Material type	1.4301 (304) also available in 316
---------------	---------------------------------------

Hinge Lay-Out	Single Interlocking Rivet
---------------	---------------------------

Certificates (st.)	3.1 material
--------------------	--------------

Flange Size \varnothing	$\varnothing A$
25	31.75
50.5	53.59
64	66.90
77.5	80.59
91	93.98
119	122
